How to use this list

2. **Learn a little every day.** 20 new words a day takes you through the whole list in under three months.
3. **Tick the box** once you can read the characters and give the meaning without looking at the other columns.
4. **Cover a column to test yourself.** Hide the meaning, then the pinyin, then try from English back to Chinese.
5. **Review the unticked words** at the end of every week before adding new ones.
