BEFORE YOU START

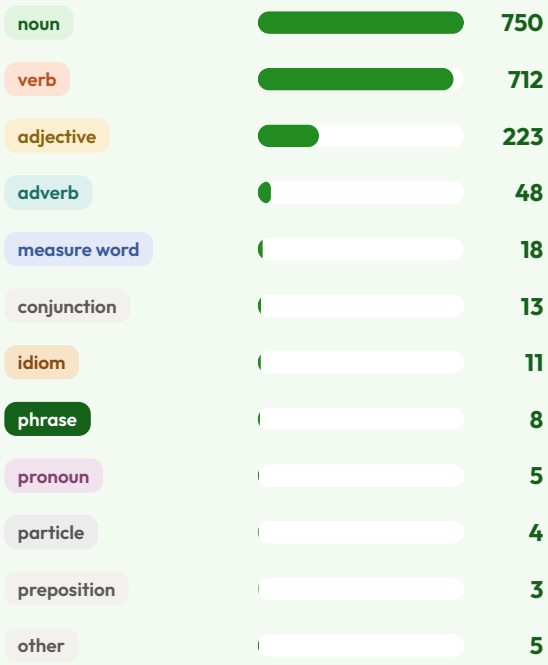

How to use this list

1. **Read it out loud.** Say the pinyin with its tone every time, not just in your head.
2. **Learn a little every day.** 20 new words a day takes you through the whole list in about three months.
3. **Tick the box** once you can read the characters and give the meaning without looking at the other columns.
4. **Cover a column to test yourself.** Hide the meaning, then the pinyin, then try from English back to Chinese.
5. **Review the unticked words** at the end of every week before adding new ones.

向往 — xiàngwǎng — verb — to yearn for

Each entry shows the characters, the pinyin, the word type and the meaning. A word type in an outlined tag, like noun, is a less common use of that word.

WHAT'S IN THE 1,800 WORDS

Counted by each word's main type. "Measure word" covers classifiers like 栋, 艘 and 株. "Idiom" marks four-character expressions like 人山人海. Phrases are fixed expressions like 打交道. Numbered words like 局¹ / 局² are different words written the same way.
