VOCABULARY LIST

New HSK 2
200 words

Every new word for New HSK level 2, on top of the 300 from level 1, with pinyin, word type and meaning, plus a box to tick when you know it.

二级

200	**words**, in pinyin order with A–Z sections
200	**different characters** to recognise
7	**quick-reference lists**: directions, positions, linking words and more

BEFORE YOU START

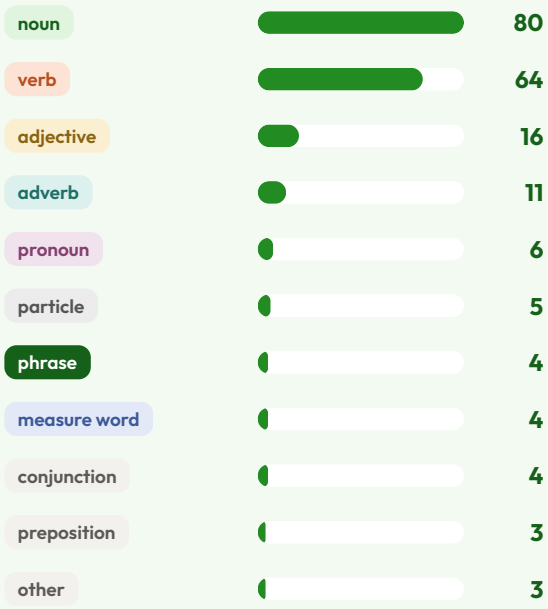

How to use this list

1. **Read it out loud.** Say the pinyin with its tone every time, not just in your head.
2. **Learn a little every day.** 10 to 15 new words a day takes you through the whole list in two to three weeks.
3. **Tick the box** once you can read the characters and give the meaning without looking at the other columns.
4. **Cover a column to test yourself.** Hide the meaning, then the pinyin, then try from English back to Chinese.
5. **Review the unticked words** at the end of every week before adding new ones.

快乐 — kuàilè — adjective — happy, joyful

Each entry shows the characters, the pinyin, the word type and the meaning. A word type in an outlined tag, like noun, is a less common use of that word.

WHAT'S IN THE 200 WORDS

Counted by each word's main type. "Particle" covers small grammar words like 得, 地, 过 and 着. "Measure word" covers classifiers like 次, 条 and 位. Phrases are fixed expressions like 不好意思 and 有意思. 花¹ and 花² are two different words written the same way.
