VOCABULARY LIST

New HSK 3
500 words

三级

The 500 new words of New HSK level 3, with pinyin, word type and meaning, plus a box to tick when you know it.

500	**words**, in pinyin order with A–Z sections
480	**different characters** to recognise
6	**quick-reference lists**: compass points, seasons, linking words and more

BEFORE YOU START

How to use this list

1. **Read it out loud.** Say the pinyin with its tone every time, not just in your head.
2. **Learn a little every day.** 15 new words a day takes you through the whole list in just over a month.
3. **Tick the box** once you can read the characters and give the meaning without looking at the other columns.
4. **Cover a column to test yourself.** Hide the meaning, then the pinyin, then try from English back to Chinese.
5. **Review the unticked words** at the end of every week before adding new ones.

聪明 — cōngmíng — adjective — smart, clever

Each entry shows the characters, the pinyin, the word type and the meaning. A word type in an outlined tag, like (noun), is a less common use of that word.
