BEFORE YOU START

How to use this list

1. **Read it out loud.** Say the pinyin with its tone every time, not just in your head.
2. **Learn a little every day.** 15 new words a day takes you through the whole list in about 5 months.
3. **Tick the box** once you can read the characters and give the meaning without looking.
4. **Cover a column to test yourself.** Hide the meaning, then the pinyin, then go from English back to Chinese.
5. **Review the unticked words** at the end of every week before adding new ones.

愛護

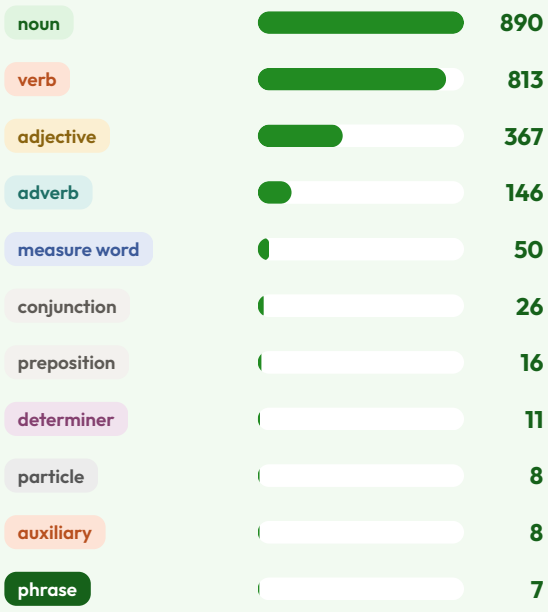

àihù

verb

To cherish, protect

Each entry shows the characters (Traditional), the pinyin, the word type and the meaning. When the official list gives several forms, like 這裡 / 這兒, they are all shown: any of them is correct.

WHAT'S IN THE 2,342 WORDS

Word types follow the official TOCFL codes, grouped for readability: **adjective** = state verbs (Vs), **verb** = all other verbs (V, Vi, Vst, Vp…). Separable verbs keep their code (**V-sep**): they can split around an object, like 睡個覺.
