VOCABULARY LIST

New HSK 1 300 words

Every word you need for New HSK level 1, with pinyin, word type and meaning, plus a box to tick when you know it.

一级

300	**words**, in pinyin order with A–Z sections
248	**different characters** to recognise
6	**quick-reference lists**: numbers, questions, time and more

BEFORE YOU START

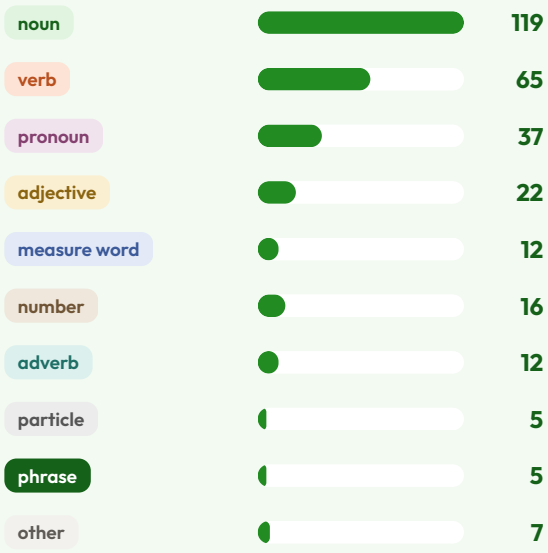

How to use this list

1. **Read it out loud.** Say the pinyin with its tone every time, not just in your head.
2. **Learn a little every day.** 10 to 15 new words a day takes you through the whole list in about a month.
3. **Tick the box** once you can read the characters and give the meaning without looking at the other columns.
4. **Cover a column to test yourself.** Hide the meaning, then the pinyin, then try from English back to Chinese.
5. **Review the unticked words** at the end of every week before adding new ones.

好吃 — hǎochī — adjective — delicious, tasty

Each entry shows the characters, the pinyin, the word type and the meaning. A word type in an outlined tag, like noun, is a less common use of that word.

WHAT'S IN THE 300 WORDS

Counted by each word's main type. "Particle" covers small grammar words like 的, 了, 吗 and 呢. "Measure word" covers classifiers like 个, 本 and 只. Phrases are fixed expressions like 你好 and 不客气.
